DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species A (Figures 1-8) readable on claims 8-14 and 34-36 in the reply filed on 10 August 2006 is acknowledged.
2. Claims 1-7, 15-33, 37 and 38 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 10 August 2006.

Priority

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

4. The information disclosure statements (IDS) submitted on 23 April 2004, 30 June 2004 and 29 March 2006 were filed and are being considered by the examiner.

Drawings

5. The drawings were received on 30 June 2004. These drawings are acceptable.

Specification

6. The disclosure is objected to because of the following informalities: Applicants need to update all the current status of the continuing data information under cross-references. Appropriate correction is required.
7. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is

Art Unit: 2853

requested in correcting any errors of which applicant may become aware in the specification.

Double Patenting

8. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

9. Claims 8-14 and 34-36 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 8-14 and 34-36 of copending Application No. 10/892,314. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.
